

Social Activities

Here is the list of different social activities that were brainstormed during our winter workshop. When applicable we have divided them into Term 1, 2, or 3. Those activities which are good to do all year long have been marked with an asterisk. These are just guidelines, and you can talk to your social rep (if you have one) about choosing activities which best suit your group. Every group is different, and may have the comfort level to move into some of the Term 2/3 activities sooner. The goal of MumNet social activities is to have maximum participation from the group.....therefore keeping in mind comfort zones, convenience and cost. Have fun!!!
